

5 DAYS OF DELIVERY?

PrimeNet can help you build a plan for your marketing program.

Now is the time to prepare for your future marketing needs, **should** the USPS go to a five day delivery week!

Reasons for the Change

- The financial impact of eliminating Saturday delivery would result in annual savings of approximately \$3 billion (in 2009 dollars)
- Implementing 5-day delivery would return 2009 average daily volumes to 2007 levels
- 66% of Americans would prefer 5-day delivery over using taxpayer dollars and other options
